# DOMINO BUFFET SYSTEM

---

Domino is a flexible modular buffet system with components that interlock or stand alone. Made from durable 18/10 stainless steel, it offers tool-free height adjustments and heated options powered by StellarVolt™ Induction Warmers. Base modules come in three sizes and stack for custom high-low displays.

## WHY YOU'LL *LOVE* IT

### **Customizable Configurations**

Create cohesive buffet stations for hot, cold, beverage, and dry food service using interchangeable and connectable modules. Configure each station to support your specific menu, service style, and room layout.

### **Space-Saving Design**

Engineered for effortless storage and mobility. Stackable components and integrated magnets optimize space efficiency and enhance stability.

### **Enhanced Maintenance & Durability**

Crafted from 18/10 stainless steel and durable, eco-friendly acacia wood, Domino is perfect for high-traffic hospitality environments.

### **Smart Induction Technology**

Precision thermostat keeps food at ideal temps (150–210°F) with auto-adjust safety. Fanless design prevents smoke and steam infiltration, protecting electronics for greater durability.

## DOMINO SYSTEM ASSEMBLY

### FOUNDATION

1. All Domino set ups start with the stand, which comes with 4 legs.
2. Legs attach with easy lock & unlock system.
3. Build your Domino display by connecting stands and adding components.

### INDUCTION

1. After building the stand, place the magnetic wooden platform on top of the base. The magnets hold the chafer safely in place.
2. Insert induction through the hole in the platform.
3. The stand is now ready for induction warming and the stand can be attached to other induction stands to create a unique look with height and depth.

## DOMINO SYSTEM ASSEMBLY

### INDUCTION - ARTISAN

1. After building the stand, place the wooden platform and induction ring on top of the base.
2. Insert induction through the hole in the platform.
3. Place the anti-skid pad on top of the induction, (necessary for Artisan Chafers).
4. The stand is now ready for induction warming with Artisan Chafers.

### COOLING

1. After building the stand, place a cold pan inside.
2. Place 2 ice packs inside the cold pan.
3. Place trays or bowls on top to complete the cold set up.
