FOH[®]
FRONT OF THE HOUSE[®]

Born from a vision to create a high-performance material while reclaiming plastic waste from waterways, *re.WARE*® gives recycled PET bottles a second life and a purpose that supports our planet.

re.WARE® resists fading, cracking, warping, and staining, even with rigorous commercial washing, delivering lasting durability without compromise. *re.WARE*® PET is the most widely recyclable plastic and can be easily recycled at the end of its service life, ensuring its journey contributes to a smaller waste footprint.

LIFE CYCLE

A vertical spiral graphic with four distinct stages. The top stage is a dark teal ribbon with the text "LIFE CYCLE". The second stage is a light blue ribbon with a close-up image of a clear plastic bottle. The third stage is a dark teal ribbon with the text "FROM PLASTIC BOTTLES". The fourth stage is a light brown ribbon with a close-up image of white plastic pellets. The bottom stage is a dark teal ribbon with the text "TO PELLETS". The final stage is a dark teal ribbon with the text "INTO NEW PRODUCTS" and a satellite image of the Earth. The spiral ends in a dark teal arrowhead pointing downwards.
