## WHY YOU'LL *LOVE* IT

### Ultra-Efficient Power Usage

Maximize energy savings with smart designs that increase the number of chafers on a single circuit to significantly reduce energy costs.

### Precision Heating Control

Maintain optimal serving temperatures with the enhanced heat management and automatic adjustments our systems offer.

### Innovative Designs

Advanced technology enhances reliability and ensures ease of installation and use while maintaining superior performance.

### Durable Construction

Unlike traditional induction units, our fanless technology prevents smoke and steam infiltration, protecting internal electronics for enhanced durability and reliability.

# STELLARVOLT™ AUTONOMOUS INDUCTION COOKER

NEW *collection*

## AUTONOMOUS INDUCTION COOKER

**Single battery operation** for convenient, cordless performance.

**Powerful performance** for up to 6 hours of continuous warming or 1.5 hours of cooking with each Autonomous Battery.

**Extended operation** for up to 48 hours of warming or 6 hours of cooking when paired with our Lithium-Ion Battery.

**Maintains consistent temperature** for reliable warming and cooking performance.

**Scratch resistant surface** in matte finish delivers a modern appearance while withstanding daily commercial use.

**Automatic safety shutoff** helps prevent overheating and protects internal components.

**1 year warranty** provides assurance of reliable performance and quality.

## BATTERY

**Integrated BMS (Battery Management System)** optimizes battery performance while protecting against overcharge, over-discharge, and overheating.

**4.5 hours** charge time.

**Battery level indicator** provides clear visual reference of remaining charge status.

**Safety lock** ensures secure connection between battery and induction unit during operation and transport.

**Recessed handle** allows for comfortable grip and easy handling while maintaining a clean profile.

## CHARGING STATION

**Integrated handles** allows for easy lifting, positioning, and installation.

**Wall-mount brackets** for secure installation or stable countertop placement.

**Durable, corrosion-resistant material** suitable for commercial environments.

**1 year warranty** provides assurance of reliable performance and quality.

## CHAFER TRANSPORT TROLLEY

**Designed & engineered** for easy transport on all surfaces like carpet, tile, brick and cement.

**Non-marking casters** support up to 5,000 lbs, ideal for heavy-duty daily use.

**Resistant to wear and tear,** ensuring reliability under high stress, built for long-term performance.

**Bumpers protect the trolley** and surrounding equipment from damage, especially in high-traffic areas.

**Rubber deck** is resistant to stains and liquids, making it easy to clean. Non-slip surface keeps chafers and crates securely in place.

**Compact storage,** minimizing the space needed to store chafers.

All crates fit on the  
Chafer Transport Trolley

Individually customized  
with durable foam to  
snugly secure your  
chafer investment

Keeps chafers clean,  
minimizing the need to  
re-clean before use

# DOMINO BUFFET SYSTEM

---

Domino is a flexible modular buffet system with components that interlock or stand alone. Made from durable 18/10 stainless steel, it offers tool-free height adjustments and heated options powered by StellarVolt™ Induction Warmers. Base modules come in three sizes and stack for custom high-low displays.

## WHY YOU'LL *LOVE* IT

### Customizable Configurations

Create cohesive buffet stations for hot, cold, beverage, and dry food service using interchangeable and connectable modules. Configure each station to support your specific menu, service style, and room layout.

### Space-Saving Design

Engineered for effortless storage and mobility. Stackable components and integrated magnets optimize space efficiency and enhance stability.

### Enhanced Maintenance & Durability

Crafted from 18/10 stainless steel and durable, eco-friendly acacia wood, Domino is perfect for high-traffic hospitality environments.

### Smart Induction Technology

Precision thermostat keeps food at ideal temps (150–210°F) with auto-adjust safety. Fanless design prevents smoke and steam infiltration, protecting electronics for greater durability.

## DOMINO SYSTEM ASSEMBLY

### *Foundation*

1. Legs attach with easy lock & unlock system.
2. Use legs to add height and link multiple Domino stands together.
3. Build your Domino display by connecting stands and adding components.

### *Induction*

1. After building the stand, place the magnetic wooden platform on top of the base. The magnets hold the chafer safely in place.
2. Insert induction through the hole in the platform.
3. The stand is now ready for induction warming and the stand can be attached to other induction stands to create a unique look with height and depth.

### *Induction - Artisan*

1. After building the stand, place the wooden platform and induction ring on top of the base.
2. Insert induction through the hole in the platform.
3. Place the anti-skid pad on top of the induction, (necessary for Artisan Chafers).
4. The stand is now ready for induction warming with Artisan Chafers.

### *Cooling*

1. After building the stand, place a cold pan inside.
2. Place 2 ice packs inside the cold pan.
3. Place trays or bowls on top to complete the cold set up.

# DOMINO SYSTEM STARTER SETS

The Domino System offers limitless configuration possibilities, giving you the freedom to design a setup that fits your space and service style. To make getting started easy, we've curated a collection of our most popular configurations into ready-to-use sets. Each set gives you a great starting point. Choose the configurations that fit your buffet service today and continue building as your needs grow.

## HEAT LAMPS & CARVING STATIONS

---

### WHY YOU'LL *LOVE* IT

#### Heating Control

Heat lamps provide consistent heating for optimal food temperature, available in single and double lamp options.

#### Optimized Performance

Designed for standalone use or seamless integration with carving stations, heat lamps offer exceptional flexibility for buffet configurations.

#### Efficient Heating

Crafted from premium 18/10 stainless steel and food-safe HDPE with dishwasher safe components, our carving stations are easy to maintain.

#### Storage Efficiency

Stackable carving stations optimize storage space, and modular elements seamlessly integrate with other collections to create a cohesive buffet setup.

#### Removable Drip Trays

Integrated drip trays capture excess juices and grease, keeping the area clean and simplifying maintenance.

# COUNTER DISPLAYS

---

## WHY YOU'LL *LOVE* IT

### **Modular Designs**

Configurable components, stackable units, and multi-tier displays all seamlessly integrate hot, cold, and ambient temperature displays.

### **Temperature-Controlled**

Solutions featuring integrated cooling, ice pans, or neutral displays for items that don't require temperature regulation.

### **Durable & Hygienic**

Crafted from stainless steel, durable acrylic, and other easy-to-clean materials for long-term use and food safety compliance.

### **Versatile Styles**

Counter displays are available in trend-forward finishes that seamlessly match other collections, including matte, glossy, and wood grain.
